

DARIUS JOHN S. GARCIA

DEVOPS ENGINEER

Burol II, Dasmariñas, Cavite | darius.forworkgarcia@gmail.com | darius-garcia-portfolio.vercel.app | +63 947 613 5440 | LinkedIn: linkedin.com/in/darius-john-garcia

EDUCATION

De La Salle University - Dasmariñas

Bachelor of Science in Information Technology, Specialization in Web Development 2022 - August 2026

- First Honors - 3.80/4.00 GPA
- Director of Technical and Media Management, College of Science and Computer Studies Student Government (CSCSSG) 2023-2024
- Press Communications Office, DLSU-D University Student Government 2024-2025

EXPERIENCE

Global Dominion Financing Inc. (GDFI)

January - May 2026

Business Solutions and Production Support Intern

- Supported and monitored Loan Origination (LOS) and Loan Management Systems (LMS).
- Assisted in Business Requirement Document (BRD) reviews and User Acceptance Testing (UAT) for system enhancements and vendor deliverables.
- Researched emerging technologies and process improvements to optimize business workflows.
- Developed and deployed an internal ticketing system using Microsoft Power Apps.
- Gained exposure to software deployment, production support, and IT operations.

PROJECTS

M.I.L.O - Monetary Intelligence Ledger Organizer

Tools & Technologies: Flutter & Dart · Firebase Firestore · OCR Scanner · AI Chatbot Integration · GitHub

- Developed and deployed a full-featured budgeting application with cloud-based backend integration.
- Managed version control and collaborative development workflows using GitHub.
- Implemented and tested application features to ensure reliability and performance optimization
- Best Thesis (2026) - College of Information and Computer Studies
- 3rd Place - DLSU-D Institutional Research week Thesis Presentation Competition.

OpsTicket DevOps Deployment

Tools and Technologies: Docker, Kubernetes, Minikube, React, Node.js, Linux

- Containerized a full-stack ticketing application using Docker and Docker Compose.
- Built and managed frontend and backend container images for consistent deployments.
- Deployed application workloads to a Kubernetes cluster using Deployments and Services.
- Configured Kubernetes networking for communication between frontend and backend services.
- Performed troubleshooting and log analysis to resolve service connectivity, port configuration, and application routing issues.
- Validated application availability through Kubernetes service exposure and cluster-based deployment testing.

DevOps Automation Toolkit

Tools & Technologies: Bash, PowerShell, Linux, Windows, Git

- Automated system administration tasks using Bash and PowerShell scripts.
- Developed monitoring, backup, and log management automation tools.
- Implemented scripts for system health checks and operational maintenance.
- Managed automation workflows using Git version control.

TECHNICAL SKILLS

- Programming Languages** - JavaScript, TypeScript, Dart, Java, Python (basic), C#
- Frameworks & Technologies** - Flutter, React, ASP.NET, Firebase (Firestore & Auth), Vite, Tailwind CSS, Bootstrap, Firebase Firestore, MySQL, SQL Server, MongoDB (basic)
- Other Tools & Platforms** - Git, GitHub, GitHub Actions, Android Studio, Figma, Vercel, Netlify,
- DevOps & Cloud Technologies** - Docker, Kubernetes (Basic), Kubect!, Minikube, GitHub Actions, CI/CD Concepts, AWS Cloud Fundamentals

TRAININGS/ CERTIFICATIONS/ AWARDS

- Foundational C# with Microsoft** | FreeCodeCamp
- Excellence in Leadership** | DLSU - D
- The Complete Full-Stack Web Development Bootcamp By Dr. Angela Yu** | Udemy (Ongoing)
- Endpoint Security, Cyber Threat Management, Introduction to CyberSecurity** | Cisco
- Ultimate AWS Certified Cloud Practitioner CLF-C02 2026 By Stephaan Maarek** | Udemy (Ongoing)
- The Complete 2026 Software Testing Bootcamp By Tarek Roshdy** | Udemy
